

U. S. AWAITING MEXICAN REPLY TO SHARP NOTE

Mexican Cabinet Considered Reply Friday—No Word.

By Associated Press Leased Wire
Washington, D. C., Nov. 24.—The American government's note demanding the immediate release of William O. Jenkins, American consular agent at Puebla, is understood to have been considered by the Mexican cabinet last Friday, the State Department announced today. Gov. Cabrera, of Puebla, was present, but the department's advice did not say what action, if any, was taken.

The department's statement follows: "The department has not yet received the answer of the Mexican government to the American note calling for the immediate release of William O. Jenkins, the American consular agent at Puebla, Mex., who was re-arrested and put in the penitentiary shortly after his release by kidnappers near Puebla. It is understood that the Mexican cabinet had the note under consideration Friday and that Gov. Cabrera of Puebla was called in from Puebla for report."

EXPECT REPLY TODAY.

By Associated Press Leased Wire
Washington, D. C., Nov. 24.—State Department officials expected a reply today to the American note demanding the immediate release of William O. Jenkins, American consular agent at Puebla, who was re-arrested last Tuesday on additional charges in connection with his abduction by bandits.

A dispatch bearing on the Jenkins case was received yesterday at the Mexican embassy and it was assumed that this was Mexico's reply. While there has been no indication as to Mexico's attitude, a refusal to release the consular agent would not come as a surprise.

The American demand was delivered to the Mexican foreign office last Wednesday, but as late Friday Jenkins still was held at Puebla and so far as the State Department has been advised he has not been released.

HOME BREW SUPPLIES TAKEN OFF SHELVES

Experts at the art of manufacturing "home brew" may experience some delay in securing the necessary ingredients for a time, all due to the visit of a United States internal revenue agent here Saturday. The government representative visited several of the stores of the city where the necessary ingredients for the popular beverage have been offered for sale and carefully examined the labels.

In some instances the agent put his seal on the stock of ingredients on hand—ordered it removed from the shelves and notified the proprietors of the stores to cease offering it for sale. Some of the several brands on the market bear a label which the agent believes to be altogether too bold in advertising the product as a beverage, these were ordered off the shelves. Other brands used for exactly the same purpose but with the label not so bold are still to be had, however.

JAMES H. THOMPSON RETURNS TO DIXON

James H. Thompson, for many years a popular and familiar figure in the Lee County Court House, has resigned the position of superintendent of the National cemetery at Fayetteville, Ark., and has returned to Dixon to make his future home with his daughters, Mrs. Eunice McMahon and Mrs. Nina M. Deeter. Failing health has caused the venerable gentleman to give up the position to which he was appointed a few years ago and he returned to this city last evening with Mrs. McMahon and Mrs. W. C. Thompson who went to Fayetteville in order that they might make the trip to Dixon with him.

BOY HUNTER KILLED BY HIS GUN SATURDAY

Norman Rice, the 14-year-old son of Mr. and Mrs. William Rice, who reside one and one-half miles west of Colebrook, Whiteside county, was instantly killed late Saturday afternoon while out hunting with his older brother, when his own gun was accidentally discharged, the charge tearing a big hole in his breast, just below the heart. The lad was leaning over to place the gun on a stump when it was discharged.

William Godfrey has returned to Jerome, Idaho, where his parents, Mr. and Mrs. W. H. Godfrey, reside after a two months' visit here with his daughter, Miss Katherine Godfrey.

NO LABOR, NOR PIPE; HOW CAN WORK PROCEED?

Sewer Contractor Finds Life One D. Thing After Another.

Contractor Nick Santucci of Chicago, who had the contracts for the laying of the West First street and Jackson avenue sewer jobs, spent a few hours in Dixon Saturday, devoting the greater part of his time to the work on First street, west of College avenue. Complaint had been registered with the city officials as to the condition of the street as left by workmen and Santucci was notified to take immediate steps and put the street in passable condition.

The street was graded Saturday and its condition greatly improved. The Jackson avenue contract will probably not be finished before spring from present indications. The pipe for this work was to have been shipped from the works at Brazil, Ind., today. The contractor now has three jobs which have been started and are a long way from being finished. At present, aside from the Dixon contract, he has large jobs open in Rockford and Beloit and is unable to secure sufficient help to close either contract. His employees have taken other jobs affording them indoor work for the winter and on the two jobs at Rockford and Beloit, he has but seven men working.

Should the pipe arrive within a few days, he would doubtless experience considerable difficulty in securing the necessary labor to proceed with the Jackson avenue work and it is quite likely that this will have to wait until spring.

FORMER STERLINGITE, MURDERED IN CHICAGO, WELL KNOWN IN DIXON

Attorney James Gallagher Was Shot From Ambush Friday Evening.

By Associated Press Leased Wire
Chicago, Ill., Nov. 24.—A woman was being sought by the police today in an effort to establish a motive for the murder of James P. Gallagher, an attorney who was shot down on the street here three days ago. Detectives turned from the theory that the attorney was killed by a highwayman and searched for the woman, said to have been a close friend of Gallagher's, in the belief that the shots were fired by a jealous suitor.

A man hiding in a doorway fired on Gallagher last Friday night as he passed along the street. He escaped apparently without any attempt at robbing his victim.

IS FORMER STERLING MAN

James P. Gallagher, to whose murder the above dispatch refers, is a former Sterling man and is well known in Dixon, especially among members of the Knights of Columbus. He was born in Sterling, Jan. 4, 1874, received his education in the schools of that city. He went to Chicago about fifteen years ago, serving for some time as secretary to the president of the Erie railroad. For the past several years he had practiced law in Chicago. His brother, William J. Gallagher, cashier of the First National bank of Sterling, went to Chicago Saturday, on receipt of word of the murder and is still there to assist the authorities in clearing up the mystery, if possible.

A Possible Motive

The first possible motive for the assassination was supplied by Samuel G. Muffett, a classmate and former law partner of the murdered man.

Immediately after he had told his story the police department buzzed with the old detective's adage, "Find the woman." The figures in the triangle, according to Muffett, were Gallagher, a beautiful woman of the statuesque brunette type and a swarthy rival. The woman and Gallagher had been friends since the former's early girlhood; he loved her, and all that kept back the proposal of marriage was the knowledge that his lack of funds would not give her the comforts and luxuries she craved. Muffett said.

Thinks Pair Hold Secret

On the other hand, was the mysterious suitor, apparently plentifully supplied with funds, who had been infatuated with the woman for years, but whose attentions she secretly scorned. Muffett believes when this man and this woman, neither of whose names he knows, are found, the murder will be cleared.

There was never any trouble between Muffett and Gallagher. They were still good friends, often met, and were now and then associated in small legal cases. Muffett last saw Gallagher about a week ago.

Sees Mysterious Pair

"I first saw this woman and this man about two years ago," said Muffett. (Continued on Page 4.)

MANY NEAR DEATH IN TWO AUTO ACCIDENTS NEAR DIXON SUNDAY

Miss Mary Tourtillott Suffered Concussion of Brain—Others Hurt.

Alfred Tourtillott and family and Miss Mary Tourtillott of this city received injuries in an automobile accident last evening about 7:30 o'clock five miles south of Dixon on the Peoria road, when the Ford car in which they were returning home from Amboy, went over a steep embankment, turning completely over. Upon leaving Amboy, one of the radius rods beneath the car is said to have broken and Mr. Tourtillott proceeded on his way, believing that he could drive home without that part of the mechanism bothering.

As the car neared the five mile branch the wheels spread suddenly, letting the machine down over a steep embankment along the side of the road. Miss Mary Tourtillott of this city and Mr. Tourtillott's daughter, received the most severe injuries. Miss Mary suffered a concussion of the brain and was unconscious for some hours after the accident and was also cut and bruised. The other young lady suffered a deep scalp wound, an injury to her shoulder and one of her wrists was badly sprained. The other occupants of the car were bruised and cut. All were removed to the Alfred Tourtillott farm residence where Dr. R. L. Baird attended them. Reports this morning from the home indicate that all are getting along as well as can be expected, but are suffering considerably from their injuries.

FORD WRECKED IN COLLISION

A Ford touring car belonging to J. G. Swackhamer, route one out of Sterling, was almost totally wrecked last evening about 8:30 in a collision with a Buick car driven by Bruce Gephardt of Sterling. That the occupants of the Ford escaped without being killed instantly or badly injured is nothing short of a miracle. Mr. Swackhamer, who was driving the Ford was thrown out of the car and was unconscious for several minutes while his wife and other members of the family, some of whom were thrown through the curtains, were only lightly injured.

The Buick car after striking the Ford ran into a tree, and was damaged to such extent that it had to be abandoned and later towed to a local garage for repairs. The Ford was hauled in this morning and will have to be rebuilt.

Mr. Swackhamer states that he was on his way home from Dixon and as he approached the corner of Palmyra avenue and Loveland place, noticed the heavy car coming directly toward him at a high rate of speed. He claims to have killed his engine and applied the brakes in order to prevent a collision if possible, but he Buick car, coming at a high rate of speed, sidestepped his machine and then proceeded until it was brought to a stop by striking a tree on the north side of the road. Mr. Swackhamer claims to have been driving on the north side of the street and had turned off the pavement entirely in an effort to avert a collision.

There were five persons in the Gephardt car, who came to Dixon without offering assistance to the occupants of the Ford car, Mr. Swackhamer claims. Mr. Swackhamer came to Dixon this morning to have his machine repaired and stated that aside from being badly bruised, the members of his family were not seriously injured.

JOKER STIRS CITY WITH REPORT THAT WILSON WAS DEAD

Vice President Reads Message — Meetings Are Broken Up.

By Associated Press Leased Wire

Atlanta, Ga., Nov. 24.—State and city officials today were investigating the hoax perpetrated here last night by an unidentified man who telephoned to the city auditorium, where Vice President Marshall was speaking, that President Wilson was dead and that Washington was calling for Mr. Marshall on the long distance telephone.

After Mr. Marshall had announced the message to the audience, women began to weep and at the request of Gov. Dorsey, who was present, a minister offered a prayer. As the audience filed out the organist played "Nearer My God to Thee."

Persons leaving the auditorium spread the report over town and service at several churches were abruptly ended. Meanwhile Mr. Marshall communicated with The Associated Press and learned that the report of the President's death was without foundation. Gov. Dorsey was communicated with and he immediately offered a reward of \$100 for the arrest of the man who telephoned the false report.

WOULD IMPEACH ANDERSON, WHO STOPPED STRIKE

Labor Party Delegates Pass Resolution—Debate Platform.

By Associated Press Leased Wire
Chicago, Nov. 24.—A demand for impeachment of Judge A. B. Anderson of the United States district court was formally voiced today by the New National Labor Party in a petition addressed to congress. The jurist's action in granting the government a mandatory injunction ordering rescinding of the coal miners' strike call was the reason assigned for the action.

The action followed presentation of a report by Robert M. Bruce of Chicago, chairman of the convention's resolution committee. Only one voice in the gathering was raised against the resolution. R. L. Martin, a West Virginia official of the United Mine Workers, objecting to the procedure as "a waste of time."

"Congress has never paid attention to the demands of labor," he said. "The only way to remedy present conditions is to change control of the government by voting the National Labor Party into power."

Nevertheless Martin and every other delegate to the convention signed the petition and then ordered 10,000 copies printed for distribution.

It is planned to have the impeachment petition signed by one million members of labor organizations before it is presented to congress next month.

The resolution read in part: "Your petitioners represent that Judge A. B. Anderson of the United States district court, for the district of Indiana has violated his oath of office to preserve, protect and defend the constitution of the United States; that he has deliberately and willfully denied to citizens of the United States their constitutional rights and has violated the limitations upon authority imposed by the constitution and the statutes of the United States and by the decisions of the Supreme Court of the United States and by the decisions of the Supreme Court of the United States; that he has utilized the power of his office to coerce free men into involuntary servitude; that he has substituted his autocratic will for the law; that he has forced 400,000 men to disobey the orders of a court of the United States or else submit to intolerable wrong and to the deprivation of inalienable rights—rights which are guaranteed under the constitution of the United States—and that thereby he has brought the courts into disrepute and the law into contempt; that he has compelled every mine worker who is faithful to his American citizenship to risk his individual liberty in order that he may maintain the freedom of labor and preserve for himself and his fellow citizens that liberty which the United States government was founded to preserve; and for these reasons we petition that the house of representatives impeach Judge A. B. Anderson in order that he may be removed from his office and that the congress of the United States may maintain unimpaired for the people of the United States the guarantees of liberty provided in the constitution of the United States."

To Reestablish Faith.

"Your petitioners represent that swift and stern action by the representatives of the people is necessary to reestablish faith in the inviolability of constitutional rights."

"Step by step government by injunction has encroached upon the rights of the workers. In 25 years the courts have enlarged their claims of power from the decision in the Debs case where the Supreme Court announced the 'right of any laborer or any number of laborers to quit work was not challenged,' to the order of Judge Anderson commanding that men peacefully refusing to work for an unjust wage should return to the work of making exorbitant profits for private employers. It is time to call a halt upon the oppression of labor through the courts. Men born free will not long suffer tyranny or deprivation of natural liberty in whatever form without determined resistance."

"Labor is told that the avenues of obtaining justice through peaceful means are open to all American citizens. Yet labor is constantly threatened with being compelled to accept in justice by force of arms."

Warning to Officials.

"We are peace-loving, law-abiding American citizens. We are seeking redress of grievances through the representatives of the people. But we solemnly warn all officers of government that they must cease to deny to us and our brothers fundamental rights of citizenship; that they must cease to invoke the power of guns and clubs to keep us from asserting our rights; that the government of the United States must be maintained as a government securing to all citizens, life, liberty and the pursuit of happiness."

"There are men of thought and speech alien to the United States of America who seek to foment discontent among men who see only the abuses of American institutions and fail to understand their great uses. Some of these men belong to the labor group and some are capitalists. We are not such men. We seek to aid our fellow Americans to oppose the counsels of such men."

"We submit that treason against the United States should be defined to include the willful violation by any public official of any constitutional right of a citizen."

The convention adopted a resolution demanding for the immediate lifting of the blockade against Russia, so that food may be sent to all the people of that country.

Another resolution passed protested against the deportation of Hindus arrested in this country charged with sedition against India.

FACTORIES CLOSING AS NATION'S SUPPLY OF COAL DWINDLES

National Coal Pile Melts Fast and Famine Grows Nearer.

By Associated Press Leased Wire
Chicago, Ill., Nov. 24.—Industrial plants all over the middlewest continued to close down today, fuel supplies to public utilities were curtailed further and regional coal committees advised individuals to have coal as the nation-wide strike of bituminous miners entered its 24th day.

The only large producing center reporting an improvement during the last 24 hours was West Virginia, where the output in the nonunion fields of the southern part of the state was said, by the operators, to be normal. The operators also asserted that additional organized mines in the New River and Kanawha districts in that state were expected to open today.

In the great bituminous fields of Pennsylvania, Ohio, Indiana and Illinois, the miners apparently were determined to remain idle until a settlement of the controversy over wages and hours is reached by the conference at Washington of operators and officials of the United Mine Workers of America.

At Indianapolis manufacturers agreed to close their factories three days a week, beginning today, until the coal shortage is relieved. In Chicago heat was shut off in street cars.

Five hundred Virginia state troops have been sent to St. Charles, a mining town near the Virginia-Kentucky border, where it was reported radicals had threatened to shoot any of the striking miners who attempted to return to work.

ELKS BAZAAR OPENS WITH RECORD CROWD

The annual Elks fair opened Saturday evening at Rosbrook's hall with a record attendance for the opening night of the fair for any former year. The hall will remain dark this evening on account of the regular meeting of the lodge at the club rooms to be followed by a social session. The fair committee have announced that tomorrow evening will be known as "turkey night," and is expected to be one of the biggest nights of the week.

Boats that ventured down from the White Fish shelter yesterday and last night brought reports of men being seen clinging to wreckage or lashed to floats from the Myron, although at tempts to rescue them in the midst of the enormous seas were futile.

The fire was said to have started from the explosion of an oil stove on which a 12-year-old boy was making coffee in the store room beneath the dancers.

L. N. U. Hears Gas Coal Has Been Shipped to Dixon

With an eight-day supply of gas coal on hand in Dixon, officials of the Illinois Northern Utilities company this morning received very hopeful news from their fuel agent in Chicago, who is also a member of the regional coal committee, stating that several carloads of gas coal had been located by the committee and had been ordered reconsigned to Dixon. Although the message received did not state where this coal had been located and gave no intimation as to how long it would take it to reach Dixon, officials are hopeful it will arrive here before the present supply is exhausted.

THRONE OF ITALY IS THREATENED; RUMORS HINT AT RED REVOLT

Socialist Members of Italian Parliament Threaten Trouble.

By Associated Press Leased Wire

Rome, Friday, Nov. 21.—(Delayed.)—Rumors of the latest character regarding the possibility of a very serious crisis, involving not only the cabinet but also the reigning house of Italy, are in circulation as the opening of parliament, set for December 1st, approaches.

The socialists, proud of their recent victory, are eager to continue what they call their "march forward." The older, more authoritative members of the party, however, such as Deputy Turati, leader of the Intransigent, Deputy Trever and Signor Madiglania, are against any excesses.

Bolshevism in Italy.

The new elements which have entered the socialist parliamentary group are declared to be animated by revolutionary sentiments and to favor an extreme policy which, in their opinion, will inevitably lead to the advent of bolshevism in Italy. This section now is undoubtedly most numerous, if not the most important one, in the party. It is considered that it will almost certainly assume command of the party because of the audacity and determination of its members to attain control by whatever means seems best to them.

Will Overthrow Throne?

Members of this section are quoted as declaring that comprising as they do more than 150 "live wires" among the 550 deputies, the remainder will not dare oppose them and that they will be able to accomplish "some supreme act of rebellion which will overthrow the tottering government of the Bourgeoisie."

Would Hiss the King.

Formerly the socialists never attended the opening of parliament, absenting themselves so that they might avoid being present when the king delivered his speech from the throne and to escape taking the prescribed oath in the king's presence. The newly elected extreme socialists, however, now insist that the entire group should attend the ceremony, hiss the king, insult him the moment he appeared, and prevent him from speaking. They have even gone so far as to threaten that he would be attacked on his way to the chamber or upon his return.

All this, it is pointed out, may be much more than is possible of accomplishment. Nevertheless, it has the effect of making the responsible authorities restless and anxious. It has been conceded among them that there is no measure which it would be possible to take to prevent one hundred and fifty members whistling and shouting and making it impossible for the king to be heard.

Cannot Use Force.

The rules of the Italian parliament do not provide for any such contingency, as is thus threatened, for it is stipulated that no police or armed forces can be employed in the hall where the senators and deputies meet. There would be no means of applying coercion as the meeting Monday, Dec. 1, will be the first gathering of the new parliamentary body, and the rules of the new chamber for maintaining order will not then have been formulated.

The council of ministers has been meeting almost daily to discuss this grave situation, as well as the Adriatic complications.

ASK GARFIELD HOW MUCH CAN PUBLIC STAND

Coal Wage Conference Goes Over — Wait

Garfield Answer.

By Associated Press Leased Wire

Washington, Nov. 24.—Operators and miners of the central competitive bituminous coal fields marked time today in their negotiations for a new wage scale while waiting a decision by Fuel Administrator Garfield as to what portion of any wage advance should be passed on to the public.

When the wage scale committee met this morning, the operators obtained an adjournment until tomorrow at which time they expect Dr. Garfield will be prepared to make a statement based on further investigation of facts connected with the coal industry.

Two separate proposals are before the committee. One is the offer of the operators for an increase of 20 per cent for day work and 15 cents a ton for mining and the other is the demand of the miners for a wage increase of 40 per cent an ad 7 hour day.

GARFIELD IS HOPE

By Associated Press Leased Wire

Washington, Nov. 24.—Wage negotiations promised to move today to a climax, as coal mine operators, miners and government officials participating, resumed consideration of the deadlock in the industry.

Though the flat rejection of three separate proposals for increasing the compensation of miners which were presented in turn by the operators, the miners, and finally by Secretary of Labor Wilson, left the conference facing a possible break, hopes were held out that Fuel Administrator Garfield would settle the controversy by fixing a definite limit to the advance he will allow in bituminous coal prices.

Unions Accept Offer

Operators have challenged sharply the correctness of Secretary Wilson's compromise suggestion for a 31 per cent advance in wages as necessary to meet costs of living conditions. However, the miners have accepted it, provided their working day can be shortened to 7 hours instead of eight, the present standard.

M'ADOO DECLARES OPERATORS MADE SHOCKING PROFIT

By Associated Press Leased Wire

New York, Nov. 24.—Soft coal mine owners made "shocking and indefensible" profits in 1917 and there is "grave doubt" that they are entitled to increased prices because of the proposed 31 per cent increase in miners' wages, Wm. G. McAdoo, former secretary of the treasury, declared today in a telegram to Federal Fuel Administrator Garfield. The owners' profits as shown by their income tax examined by him as secretary of the treasury in 1918, he said, showed earnings on capital stock ranging from 15 to 2,000 per cent.

"I am convinced that the wage increases proposed for the mine workers are just and reasonable," he stated.

"Before deduction of excess profits taxes—which were less in 1917 than now—these income tax returns showed that earnings of 100 to 300 percent on capital stock were not uncommon," Mr. McAdoo's telegram asserted.

Referring to the bituminous mine owners' income tax returns for 1918, which he said he had not seen, the telegram said:

"If they disclose any such profits as earned by the bituminous coal operators in 1917, it would be a grave wrong to permit the operators to take from the public additional profits in the form of increased prices for bituminous coal."

Mr. McAdoo urged that no increase in prices of coal to consumers be allowed and that the income tax returns of the soft coal mine owners be made public.

Reports recently received from the southern Russian front indicate that Gen. Denekine is being driven southward by the bolsheviks. Gen. Denekine reached Orel about a month ago but there encountered such strong resistance that he was forced to resort to the defensive. Bolsheviki official statements received later told of a break in the Denekine line to the southwest of Orel. Tambow is about 400 miles southeast of Moscow.

Consumers' League Asks for Better Laws

By Associated Press Leased Wire

Louisville, Ky., Nov. 22.—After re-electing Secretary of War Baker as its president and choosing twenty-two other officers, the National Consumers League discussed plans today for their campaign in promoting better working conditions among workers of the country.

A tentative plan, which delegates said would be adopted declares that the league should educate public opinion and so direct its force as to bring about a great lessening of dangers, for workers in unwholesome industrial surroundings.

The plan also declares for an increased share of labor in responsibility for the conduct of industry. The league proposes to promote, legislation, either state or federal, if necessary to carry out its program.

An eight hour day for women and children was urged in a resolution adopted by the 2,000 women delegates last night. Another resolution urged a co-operate movement to bring about a decrease in the cost of living, while a third resolution gave approval of the Kenyon-Kendrick bill now before congress which provides for licensing of meat packing companies.

Socialists Threaten Trouble in Parliament

By Associated Press Leased Wire

Rome, Friday, Nov. 21.—Owing to the presence of a large number of anti-constitutional deputies, the speech from the throne to the parliament may be delivered by Premier Nitti or some other official instead of King Victor Emmanuel, according to the newspaper Italia which says that all depends on the probable attitude of the socialist parliamentary group.

Only twice in the past has the speech not been delivered by the king—in 1848 when King Charles Albert was at the battlefront, and in 1860 when King Victor Emmanuel was ill.

The Italia also says that socialist deputies may perhaps refuse to take the oath of allegiance, proposing to suppress it. The same proposition has been made several times and has always been rejected. The newspaper remarks however, that the situation is much changed.

Socialists elected at the recent elections have decided, according to news from Milan, to demand besides the immediate demobilization of the army the replacement of the present ministers of war and navy. Gen. Albertoni and Rear Admiral Scacchi, by civilians. In addition they are to ask, it is said, an investigation as to why Italy entered war.

BETTER THAN CALOMEL

Thousands Have Discovered
Dr. Edwards' Olive Tablets
are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "laid" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c

FINE WHALE CROP

By Associated Press Leased Wire

Victoria, B. C., Nov. 22.—A bumper season for whales has just been closed in Northern Pacific waters and according to sea captains the yield of sulphur whales was unusually high this fall.

Seventy mammals was the leading catch of the season. The whaler St. Lawrence commanded by Captain Arvonson, which worked out of the port of Kyuquot, claimed this record. Other crews brought in from forty to sixty whales.

The season was featured principally by small sperm whales which made their way up the coast. Many were caught off Oregon and on one day eleven "tiny" ones were brought in. An ordinary sperm whale is about 60 feet long. The average length of these fishes was 30 feet.

Big sulphur whales were caught off Kyuquot. One was 88 feet long. Another measured 44 feet in girth and 162 in length.

rols of oil was obtained from the carcasses.

Organization Through Co-operation

THE Standard Oil Company (Indiana) attributes to organization its success in discharging its obligations as a public servant.

The business of the Standard Oil Company (Indiana) is a highly specialized branch of industry, where complete co-operation is necessary to insure maximum efficiency.

Every one of the 22,000 men and women who make up the Standard Oil Company (Indiana) family must have a thorough, broad-gauged understanding of the benefits to be derived from organization.

In addition each must have an intensive training which makes him a specialist, and enables him to complete his part of the work and pass it on to others without delay or lost motion.

The result is a family of highly trained individuals, tense and keen to render to the public the utmost in service.

But Standard Oil Company (Indiana) organization goes further. To give a single illustration:

When a manufacturer has two machines, identical in construction, but not equal in production, he calls on the Standard Oil Company (Indiana) for expert assistance and advice.

A competent engineer goes over the problem and after thorough investigation, finds the lubricating oil necessary to cope with conditions surrounding the inefficient machine, and to bring it up to full capacity.

Thus does the Standard Oil Company (Indiana) organization extend to industry generally, a service resulting in a combination to promote trade that production may be increased and the utmost in service given to the public.

SANDRA THE JEALOUS

By JANE PHELPS.

CHAPTER CXXXIII

Once more things ran smoothly for a time, altho often the thought of Mrs. Currie would intrude for a moment, and a half regret that I had not learned what was in that letter when I had a chance. But the change in Everett had been more pronounced since her visit. He had treated me more as a woman, less as a child, or school girl who needed to be corrected for what she had done as well as told what night do.

I was often surprised as well as pleased—when he asked my opinion of something, or asked me about his affairs. It made me very proud and happy.

I looked and felt brighter and happier than for a long time; consequently I looked younger. One day I suddenly noticed that Everett had a few gray hairs, and told him so in a shocked voice. Alice Sloan came in one evening soon afterward, and she also noticed he was beginning to turn gray, and joked him a bit about it.

"You shouldn't allow yourself to get gray," she said. "Lots of men go to the hair parlors nowadays and have their gray hairs touched up; especially those who have such young wives."

"You think I should go, do you?" he asked in a laughing manner.

"I certainly do—for your own sake." "They might say I was Sandra's grandfather, eh?" he rejoined. Alice laughed, but I sensed the bitterness in the speech. That was what my young friends had called him before, we were married, "grandpa," and I knew he had resented it then and still hated to have anyone compare our ages.

"Indeed they will if you allow yourself to get gray!" Alice would not look at me, so my warning glances were wasted. "Sandra doesn't look a day over 18, and you can't afford to look over 40."

"I wish I were but forty," he replied so seriously we both laughed. "Sandra isn't much over 18 you know."

"What a life! One would think the years had stood still for me, while they were running away with Everett!" I said to Alice. "I have grown old just as fast as you have," I turned now to Everett. "Thank goodness!"

"I know, you always wanted to be older," he smiled at me. "I never could quite understand why. Youth is the greatest thing in the world." "I thought love was," Alice broke in. Then: "Well, good people, I must run along and leave you to settle on this age question by yourselves. But remember, Mr. Graham, lots of men get their hair touched up nowadays," and she ran laughingly mischievously from the room.

"What a nice girl Alice is. So full of fun," I remarked after she left. Everett made no answer. He seemed to me in a brown study.

The next day Everett came home late for dinner, something most unusual for him. Either he came in good time, or

not at all. He had not telephoned, as he invariably did, so I had waited.

"I'm terribly late, Sandra, I hope you will excuse me," he said in his courteous manner. But I noticed something strange about him; he was flurried, ill at ease. I never had seen him so before.

"Something gone wrong at the office, perhaps," I thought as I waited for him to freshen up. He had said he wouldn't dress if I would excuse him. Usually only something quite important kept him from dressing for dinner; that night it was simply because he was late.

He was ready in a very few moments, and we sat down to dinner. His manner still puzzled me. He kept looking at me in such a peculiar manner as if he were trying to see what I was thinking about. After a while I got on my nerves and I asked:

"What's the matter, Everett? Something gone wrong at the office today?"

"No, why do you ask?" "You act so—well—as if you—had done something; or as if something unusual had happened."

"No, there is nothing."

After dinner he asked for some music. As he leaned over the piano looking for a song he had brought home a few days before, I saw that he was no longer gray.

"You have been to a beauty parlor!" I exclaimed. Then I laughed immediately, paying no attention to his embarrassment. I knew then what had made him act so peculiar thru dinner.

THE REAL YELLOW PERIL.

When a Japanese or Chinaman in
the Pacific coast feels inclined to take
to himself a bride, he visits a marriage
broker, who is one of his countrymen,
and chooses a wife from a number of
pictures. A sum of money changes
hands and the next ship from the Or-
ient lands the picture bride. America
has heard much about the "yellow
peril" and the cries of protest from the
Pacific coast states have been loud but
more or less disregarded in states where
the number of Japs and Chinese is
negligible. A speaker before the Amer-
ican Legion convention declares that in
Placer county, California, the birth
rate among the Japanese couples mated
by photo is greater than the birthrate
of all other nationalities combined.

The "yellow peril" may appear vague
and mythical in eastern states, but the
vanger might seem very real if Placer
county, California, was a little closer
home.

FORMER STERLINGITE,
MURDERED IN CHICAGO,
WELL KNOWN IN DIXON

(Continued from page one.)

"When Gallagher and I went a short
distance north of Howard avenue in Ec-
anston to look at two lots belonging to
the estate of Mrs. Anna Koenig, which
had been contested.

It was Sunday, and we were walking
north on Clark street.

"Suddenly Gallagher turned to me and
said: 'Wait a minute, Sam. Here's a
girl I know.'

"I looked across the street and there
was the woman, a beautiful, well dressed,
brunette.

"She was accompanied by the swar-
thy man, whom I saw on a later occa-
sion at closer range, and who made such
an impression on me I could pick him
out in a thousand.

"The woman was glad to see Gallag-
her. She rushed half way across the
street to meet him. Her hand was ex-
tended and there was a pleased smile
on her face.

Rival Departs in Anger

"They talked earnestly for about
twenty minutes, while the man, appar-
ently angry, paced nervously up and
down on the other side of the street.
After about ten minutes he stopped,
shot an angry glance at the couple, and
strode rapidly away.

"Gallagher talked with the woman a
few moments longer, walked about a
block down the street with her, then
bade her goodbye.

"There's the only girl I ever had any
attachment for, Sam," he said when he
rejoined me. "If I had \$10,000 today I'd
try to make her my wife. I've known
her since she was a little girl. This
man has been after her for four or five
years, but she hates him like poison."

"About two months after that the
man came to our office in the Marquet-
tine building and asked to see Gallagher,
who was out. He appeared to be angry,
and after waiting a few moments left.

"When I told Gallagher about the
visit he said: 'I don't want to see him.
That damned fool has been up to see
me several times. He wishes me to keep
away from that girl.'

"The man is of medium height, with
a swarthy skin, dark, almost almond
shaped eyes that have an odd, wicked
look, and dark hair. I would recognize
him anywhere. The woman is about 25
years old."

DIXON HEAVIES, WITH LITTLE PRACTICE, BEAT STERLING'S BEST TEAM

Hastily Assembled Football Team from Dixon Shows Great Class.

The belief of the Sterling football fans that their Tornadoes were invincible, which belief was shared by the members of that team, was completely shattered Sunday afternoon before a big crowd at the West End ball park in Sterling when the Dixon Heavies, a team of local former high school stars which was gotten together hurriedly Saturday, and which had had but about an hour's practice Sunday morning, defeated the prides of the Whiteside county metropolis 13 to 0.

It was a great game for the hundred or more Dixon people who journeyed to Sterling to see it. It was felt certain that the Dixon boys would be there with both feet on the defensive, but all Dixon rooters had some doubt as to their ability to pull any strong offensive because of their lack of practice. And right there was where the fans erred, for the inherent ability of the Dixon boys showed as soon as they got the ball and they fairly rushed Sterling off its feet for two touchdowns in the first half. In the entire game Dixon's superiority was apparent, and most of the plays was on Sterling territory.

Sterling Won Toss

Sterling won the toss and chose to defend the north goal, compelling Dixon to kick off against the wind. Sterling worked the ball steadily down the field before Dixon got its bearings, and was dangerously near touchdown when Dixon braced on her ten yard line and held. Dixon advanced the pigskin twenty yards when Byers lost it on a fumble, but after some see-saw play the ball went back to Dixon and the first period ended with it in Dixon's possession on her thirty yard line. Score: Sterling, 0; Dixon 0.

Dixon Scored Twice

In the second period Dixon started a series of brilliant plays which marched the ball steadily down the field and finally sent Hess over for the first touchdown of the game. In this grand offensive all of the backs took prominent parts. Williams made twenty yards on a fine trick play, and a little later Hess went around left end for a long run and plowed through Sterling for a touchdown. Gorham kicked out to Curran but Williams missed an attempt at goal. Score: Dixon, 6; Sterling, 0.

With the ball in play again Sterling was held and forced to punt and Dixon immediately started right down the field for its second touchdown. Hess made another long run around left end and soon afterward Byers plowed through the line and over the goal. Gorham kicked out to Hess right in front of the goal posts and Dixon kicked an easy goal. Score: Dixon 13; Sterling 0.

There was no more scoring after that, but time and time again the Dixon boys pulled stunts that sent the rooters from this city into ecstasies of joy. Byers intercepted several forward passes, grabbing the ball out of the air and breaking Sterling's heart and Hess found time to pull a couple of long runs after Sterling thought they had him stopped.

During the second half Williams turned an ankle and was forced to retire. Rowland taking his place at quarter, and handling the men exceptionally well when it was considered that he had had no practice with them in that position. The line-up:

Dixon (13)		Sterling (0)	
Curran	RE	T. Gebhardt	
Mahan	RT	McDermion	
Kennedy	RG	M. Thomas	
Graff	C	Bradley

NEED BIG CROWD AT THURSDAY'S GAME TO BALANCE H. S. LEDGER

The Dixon high school football team is counting on liberal support on the part of the people of Dixon in its Thanksgiving Day game with Sterling, and members of the team have made a partial canvass of the business part of the city selling tickets. The present season has not been financially successful for the high school athletic association, due to lack of proper support by Dixon people in the home games of the team, and a big crowd is needed Thursday to put the balance on the right side of the ledger.

Dixon expects to win the closing game, thereby giving a proper celebration of Thanksgiving Day, and a big parade will feature the day's festivities.

All but one of Sterling's injured men will be back in the line-up for the Turkey Day game. It is announced, and a great battle may be expected. The game will be played at the Brown Shoe Co. park and a tremendous crowd should turn out and cheer the local boys to victory.

In one of the wildest gridiron battles of years Illinois University's football team won the Big Ten conference cham-

pionship Saturday at Columbus, O. by defeating Ohio State 7 to 6. A place kick by Bobby Hatcher from the 22 yard line in the last two minutes of play, with the score 7 to 6 in Ohio's favor, turned the trick and crowned Illinois' team of state men the best in the west.

Illinois scored in the first quarter but failed to kick goal. Neither team was able to cross the goal lines in the second period, but Ohio made a touchdown in the third period and when Chic Harley, Ohio's wonderful star, kicked goal it looked like an Ohio victory. Then came the Illinois great rally in the last period and the fine victory.

A crowd of at least 16,000 witnessed the great contest, and there were thousands of Illinois rooters in the stands to cheer the boys from this state.

SPERONI FORFEITED MATCH WITH WISER

Thirty-five minutes of close-up work with Frank Wiser, the West Brooklyn Wildcat, was all that Young Speroni, champion welter-weight wrestler of Wisconsin desired, and at the end of that time he quit cold in his match with the West Brooklyn lad at the opera house in that village Saturday evening. Wiser showed exceptional speed

throughout the bout and had the Wisconsin boy on the defensive all the time.

MARTIN MAY GET FIGHT

By Associated Press Leased Wire
Akron, O., Nov. 24.—Jimmy Bronson, manager of Bob Martin, A. E. F. heavy weight champion, today received a telegram from Charles Cochran, London

fight promoter, asking terms for a bout between Martin and the winner of the Beckett-Carpentier fight. The offer was cabled after Jack Dempsey, world champion, had demanded \$150,000 for a London bout, it was said.

Miss Genevieve Lally, principal of the West Brooklyn school, was home for a week-end visit.

A very joyous evening was spent by the young folk of the Presbyterian church last Friday night when they assembled and went to the home of Mr. and Mrs. Hicks Chowning to whom they tendered a surprise party in honor of their recent marriage. The couple were taken completely by surprise but soon proved themselves equal to the occasion and mingled in the hilarity of the rest. After enjoying a couple of hours' entertainment in the form of some good games and stunts, the party partook of a delicious lunch, composed of sandwiches, olives, pickles, coffee, angel food cake and popcorn balls. Mr. and Mrs. Chowning were presented with a beautiful sewing tray and a small sum of money, with the best wishes of their friends in the church.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussey mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

A COLD RELIEVER FOR FIFTY YEARS

Dr. King's New Discovery has a successful record of half a century

TIME TRIED for more than fifty years and today at the zenith of its popularity! When you think of that, you are bound to be convinced that Dr. King's New Discovery does exactly what it is meant to do—soothe coughs, raw throats, congestion-tormented chests, loosen phlegm, pack and breaks the most obstinate cold and gripe attack.

Dr. King's is safe for your cold, for your mother's cold, for the child's cold, cough, croup. Leaves no disagreeable after-effects. 60c and \$1.20 bottles at your druggist's.

Bowels Act Sluggish? Irregular bowels often result in serious sickness and disorders of the liver and stomach. Make them act as they should with Dr. King's New Life Pills. Keep the liver active—the system free from waste. 25c a bottle.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the internal organs.

The millions of people who are bothered with constipation, biliousness, stomach trouble, rheumatic stiffness, others who have scallow skins, blotches and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

CORN GAINS ON MARKET TODAY

By Associated Press Leased Wire
Chicago, Nov. 24.—Announcement of the re-opening of the big cereal food manufacturing establishment here that was closed temporarily by coal shortage had a bullish effect today on the corn market. Besides, receipts were not as large as had been looked for, and there was evidence that the country did not propose to sell freely at present. Higher quotations on hogs tended also to lift the value of corn. Opening prices, which ranged from the same as Saturday's finish to 1 1/2c higher, with December 1.32 1/4, to 1.33 and May 1.26 to 1.26 1/2, were followed by additional gains in some cases.
Oats were firmer with corn. After opening 1/2c to 1 1/4c advance, including May at 75 1/2c to 76c the market hardened all around.
Provisions reflected the strength of grain and hogs. Absence of any pressure to sell was a feature.
Subsequently, talk of continued export demand led to further upturns in prices, and so too did prospects of unsettled weather. The close was strong, 1/2c to 1 1/2c net higher, with December 1.32 1/4, to 1.33 and May 1.27 to 1.27 1/2.
Later, sympathizing with reaction in hog values, the provision market eased down somewhat.

W. C. T. U. MOTHERS' MEETING—

The Woman's Christian Temperance Union met at the home of Mrs. O. E. Strook on Friday afternoon with about forty members and friends present. The president, Mrs. Herman Missman, presided. Mrs. Evelyn Street conducted the devotional service, which was followed by the salute to the flag. Letters were read by Miss Callie Morgan and Mrs. Tetrick which had been received from the mother of the French orphan whom the Union has helped to adopt. A picture of the six-year-old boy, a good looking child, was shown to the company. The meeting was conducted by the Mothers' Department and the program which was given was one suited to "Mothers' Day."

Mrs. Henry Leydig gave a reading entitled, "Rock Me to Sleep, Mother." Mrs. Strook gave a vocal solo, "He Lifted Me." The Misses Elva Wadsworth and Ruth Mossholder sang a beautiful and touching duet, "Kiss Mother Good-bye For Me." They gave as an encore, "Your Flag and My Flag." Mrs. Hobbs read a leaflet on the subject, "Shall the Children Work," which referred more particularly to the training of children in the home duties, so that they may be fitted to take up the responsibilities, when the time comes for them to assume the care of a home. Mrs. W. C. McWethy gave an address on the subject of Parent-Teacher work in the Dixon schools. She gave many helpful ideas on the subject, showing the hearty co-operation which is manifested in the meetings which the association hold, and concluded with a general invitation to all interested members of the union, whether parents or not, to join with the association.

Afterward a social hour was enjoyed, refreshments of tea and doughnuts served by the hostesses.

FOR WEDDING ANNIVERSARY—Mr. and Mrs. John J. Sheaffer, of Palmyra, entertained Sunday in honor of their tenth wedding anniversary. Mr. and Mrs. Harry Schlough and daughter Gertrude and son, Walter, of Sterling, and Mr. and Mrs. Fred Haberer and son, Russell, of Jordan.
